

The Seven Rays of Energy and Your Personal Ray Make Up

Dear Friends,

Here are some new thoughts I'd like to share about this class followed by some testimonials and possible dates in 2023.

The Seven Rays Class is a foray into both the Cosmic and the Human psyche. It involves Meditation – a surrender to and acceptance of your true essence; and a joining together of minds and hearts in a dynamic discovery of what makes you tick. It is a cooperative learning experience. Knowing, understanding, and accepting ourselves makes it possible to accept others too. This class gives you a deeper understanding into yourself and life around you.

Although the class is deep and empowering, it only brushes the surface of an extremely broad and complex subject - the energy of God! The Creator! The Source! We look in depth at the 7 qualities of the energy of the Divine that all express within us and around us everywhere.

To learn about the qualities of the Seven Rays in us requires that we offer ourselves up for mutual examination. Small classes of 6 – 10 people are ideal. Learning is aided through communication together, plus a questionnaire, meditation and an extensive handout.

If you are interested in doing this class we can do it **LIVE** and **ONLINE**. Please let me know by return email your preference or call 705-734-0107. **We can do the class in two full days (live only), 10 am to 5 pm or, we can do it once a week for four weeks, 3 hours a week, live or online.**

The handout is 60 pages of material you will want to keep and study further. The class fee is \$300. Some of you already know I am open to barter. Please read what others say about their experience in the following Testimonials and see suggested class dates after Testimonials.

I look forward to hearing from you.

In light and love,

Carol

Seven Rays Class Testimonials

Generally, I consider myself to be quite a self aware person. It was delightful to have deeper insight into how I navigate my reality (the good and not so good!)

The group was a good mix of 'Rays' so it was interesting to get a glimpse of how others function and respond to life. Carol brings compassion and humour to her already excellent teaching skills. The course would be worth repeating to get it on an even deeper level.

Taking this course with Carol was such a delight. The Rays workshop is an interesting mix of esoteric knowledge and practical advice about how to live your best life. Carol helped me to understand how and why I face the same challenges over and over again and I can now apply my new knowledge towards personal growth. Carol is a passionate and dedicated teacher who shares her knowledge with humour and grace. I highly recommend this course! A.B. Barrie, ON

"**In September of 2018** I took the 7 Rays workshop with Carol Martin. In the workshop, I learned so much about myself, but I also gained a better understanding about the people around me. I am so grateful to you for teaching such an important Course. The 7 Rays workshop has helped me grow as a person and it has helped me heal my soul and spirit. I recommend this course to anyone who is willing to open the door to understanding yourself and healing any past issues that may be holding you back. It doesn't matter where you are in that process, it only matters that you take the first step. Thank you Carol! I love and appreciate you for who you are and what you do to bring light into this world!" Tina D.

Learning about the seven rays and my ray profile, increased my confidence in who I truly am; gave me a new perspective on my choices and struggles to date, and gifted me with a greater clarity for my path forward. Elaine Bennett, Barrie

The 7 Rays course was enjoyable and informative. It helped me to understand why people behave the way that they do. I am now even more understanding, accepting and loving as a result. Thank you Carol. Alana R.

I took Carol's 7 Ray's class which I found so interesting and enlightening. The classes were quite interactive, with knowledge, humour, and they were enjoyable. Carol really knew her information. She is a lovely teacher and I look forward to taking further classes with her. Nancy M
