Esoteric Healing is the process of healing through the energy field by exercising sound judgement in the use of energy, applied with love and science. Esoteric means to understand something on a deeper level. There is an active, invisible energy field that surrounds and permeates the bodies of all living beings; we know this field as our aura. With training and practice we can learn to sense and facilitate a balance in this energy field.

When our energy flows, our body knows how to heal itself. Esoteric Healing helps to facilitate a balanced flow of energy to promote healing according to the Will of the Soul on the physical/etheric, emotional, mental, and spiritual levels.

This class is the first in a series of four classes that teach the principles and techniques of Esoteric Healing to assess and balance the physical/etheric, emotional, mental, and spiritual bodies.

Please come join us and learn how Esoteric Healing differs from other energy healing modalities with our alignment and attunement process; healing done according to the will of the soul; balancing of energy triangles within the energy field; the importance and use of the Ajna in balancing energy; and much more!

See how Esoteric Healing differs from other energy healing modalities by watching a few short videos at www.bonnieDysinger.com/videos.

The Online Philosophy Class focuses on the Philosophy of Esoteric Healing; the science of healing through the energy field utilizing spiritual healing principles. This class includes an introduction to the chakras, their association with the endocrine glands and various body organs and systems, and their psychological contributions. Students learn how to align and attune with the soul, and exercises to practice sensing energy. The online class includes some basic anatomy, an introduction to meditation, a deeper understanding of the cause of dis-ease, and the evolvment of soul consciousness. This online class consists of video lectures, assignments, and quizzes. 22 short videos (7 hours total) of online class content have been created with the specific focus to enrich student comprehension. This online course serves as preparation for the online Practical Application experiential class to begin learning the practical application of Esoteric Healing.

The Online Practical Application experience is where you learn the practical application of Esoteric Healing – how to actually do Esoteric Healing. This class for the practical application of Esoteric Healing authenticates the philosophical study. Students are expected to come prepared with the knowledge learned in the pre-requisite online class that covers the Philosophy of Esoteric Healing. In this class students learn the practical application of their alignment and attunement with the soul, how to create energy triangles within the energy field, how to assess and balance the physical/etheric, emotional, mental, and spiritual energy fields of the chakras/centers and of the organs and systems learned in the pre-requisite; how to use their Ajna as the motivator for a change in the energy field; and much more! Students also learn how to apply this hands-off technique as an absentee/distance energy healing modality, as well as using it on one's self and animals. There is a lot of student to student practical application in the classroom. The process of giving and receiving Esoteric Healing is transformative!

After class you will leave able to assess and balance the physical/etheric, emotional, mental, and spiritual bodies of your client or yourself based on a written protocol provided; begin to have a better understanding of you as a spiritual being and the progression of your soul; and look forward to attending the Part 2 class!

Who should take this class? This class is highly suggested for counselors, psychologists, nurses, energy healing practitioners, and those who want to learn energy healing and/or deepen their

spiritual practice. These classes are also open to all who feel drawn to them. No prior knowledge is required.
