

The School of Integrated Consciousness presents

## Esoteric Healing Course 4: The Whole Human

Wed, September 20, 6-9pm ET & Fri-Sun, September 22-24, 9-5pm ET

What is a whole human?

The boundaries become less defined as we explore the complex systems that feed, sustain, regulate, and inform us. This reveals us to be both temporal and cosmic beings in a vast and interconnected universe.

This course deepens the understanding of energy healing as a service, science, and art form. Additionally, we generate efficacy in working with the nervous system, and in particular, the polyvagal system. You will refine your skills as an Esoteric Healing practitioner and explore the process of creating a healing practice, which includes ethics, responsibilities, and business considerations.

In addition to a deep exploration of the nervous system, we'll cover:

- the Crown Center as our spiritual compass
- the 5 senses from physical, esoteric, and spiritual levels
- the distortions caused by glamours and illusions
- the links between chakras, planes, and states
- over 100 energy healing triangles for use with Esoteric Healing

Esoteric Healing Course 4 is an immersive course is presented via SIC's online learning platform, with live classes on Zoom. This includes home study guides and assignments, video support material, a downloadable meditation program, and an extensive course manual. We oversee in-class practice sessions and support you in developing an energy healing skill set that emphasizes ethics, responsibility, and integrity.

This certificate course is co-taught by Martha Henry-MacDonald & Steve Kramer.

It is recognized by the International Network for Energy Healing and the National Association of Esoteric Healing.
